PROFILE SUMMARY

Aspiring Software Development Engineer with expertise in full-stack development, Data Structures and Algorithms. Skilled in building scalable, real-time applications, RESTful APIs. Seeking an **SDE-1** role to craft efficient, reliable software systems.

EDUCATION

Marwadi University (NAAC A+ Accredited, NBA Tier-1)
Bachelor of Technology in Information and Communication Technology

June 2022 – May 2026
CGPA: 9.52/10.0

WORK EXPERIENCE

Brands.live, Ahmedabad

May 2024 – July 2024

Data Scientist Intern

- Engineered a Celebrity Face recognition system using OpenCV, achieving a **91% F1-Score** on **350+** images of **5** celebrity.
- Built a ML model to predict Property prices with an **88%+** model score using regression techniques on **13,000+** records.
- Designed clean user interface, including price estimator to facilitate seamless interaction and informed decisions for users.

SKILLS

Programming Languages : C/C++, Java, Python, JavaScript, PHP, Dart
Web Technologies : HTML, CSS, ReactJS, NodeJS, ExpressJS, Spring Boot
Database : MySQL, PostgreSQL, Firebase, MongoDB
Development Tools : Git, GitHub, Postman
Computer Science Courses : Object Oriented Programming , Database Management , Operating Systems

PROJECTS

Code Arena (A Programming Platform)

[GitHub Repository](#)

Technology Stack: ReactJS , PHP - Laravel, MySQL, Judge0 API

- Architected a full-stack real-time code compiler using **Self - Hosted Judge 0 Instance** and **CodeMirror Library**.
- Enhancing performance and usability for **150+ students** having role-based dashboards reducing grading time by **60%**
- Automated code evaluation through RESTful APIs, improving scalability and cutting manual grading effort by **70%**.

Trackly (Lead Management Platform)

[GitHub Repository](#)

Technology Stack: ReactJS, ExpressJS, PostgreSQL, Spring Boot, MySQL

- Built RESTful lead management APIs to streamline tracking, improving lead handling speed by 45%.
- Developed a responsive ReactJS dashboard with PostgreSQL integration for enhanced user engagement.
- Computerized lead notifications and status updates, reducing response time by over 50%.

Legal Log (Case Management App)

[GitHub Repository](#)

Technology Stack: Flutter, Dart, Mobile App Development

- Built a cross-platform case management app with Flutter, reducing manual scheduling by 65%.
- Enabled real-time tracking with Firebase sync, achieving 99.9% uptime and seamless data access.
- Designed intuitive workflows that boosted productivity and cut missed deadlines by 40%.

HACKATHONS

Event Management System (Hackentine '25)

[GitHub Repository](#)

Technology Stack: PHP, MySQL, MVC, Role-Based Access

- Developed an MVC-based event platform for academic fests with enhanced scalability and modularity.
- Built secure access controls for mentors, coordinators, and participants to streamline permissions.
- Systematized registrations and certificates, cutting admin effort by 50% and speeding up processing.

PROFESSIONAL ACHIEVEMENTS

- **Champion, Hackentine 2025:** Won 1st place among 250+ national teams.
- **Winner, 10X Code Clash:** Achieved 1st position in MU Fest 2025 university competition.
- **CP Club Deputy Convenor:** Organizing coding events and mentoring peers for the past 1 year.
- **TFWS Seat Awardee:** Secured a top 2% ranking in the state-level ACPC admission process.
- **Academic Excellence Award:** Consistently awarded for securing a position in the top 3 ranks.
